**Valley Springs Community
Based Transportation Planning
Grant - FTA 74A0438**

Mr. Timothy J. McSorley
Executive Director
Calaveras Council of Governments
P.O. Box 280
San Andreas, CA 95249-9709

Dear Mr. McSorley:

The California Department of Transportation (Department) appreciates the opportunity to review the Calaveras Council of Governments (CalaCOG) Valley Springs Community Plan. The Department awarded the grant in September 2008. A Fund Transfer Agreement (Contract Number 74A0438) was executed on January 31, 2009 with the direction to start work on that date, and is scheduled to expire on February 28, 2011.

The Department finds that all deliverables have been provided to the Department's satisfaction, with the exception that the final document should be forwarded to the Department and the State Library. CalaCOG is commended for fulfilling the conditions in its scope of work and meeting the milestones of the project schedule. Please continue to forward all requests for reimbursement to our attention.

The draft Community Plan and Appendices were reviewed by our office. The Department defers additional comment until such time as specific projects and plans are advanced for implementation.

If you have any questions or would like to discuss these comments in more detail, please contact Michael Robinson at (209) 948-7575 (e-mail: michael_robinson@dot.ca.gov), or me at (209) 948-7112 (e-mail: john_gedney@dot.ca.gov)

Sincerely,

A handwritten signature in black ink, appearing to read "John Gedney".

JOHN GEDNEY, Chief
Office of Rural Planning & Administration
